	SPEAKER	SUMMARY OF DISCUSSION AND FOLLOW-UP
I.	<i>Lisa Kodmur, Facilitator, Pacific Health Consulting Group</i>	<p><u>Welcome, Introductions, and Approval of Meeting Summary</u></p> <ul style="list-style-type: none"> • Lisa Kodmur, Meeting Facilitator, called the meeting to order at 1:00 p.m.. • The members, staff, and guests introduced themselves. The meeting summary for June 22, 2017 was reviewed; one edit to the attendee list was made.
II.	<i>Monika Vega, Harbage Consulting, on behalf of DHCS</i>	<p><u>DHCS Report/Updates</u></p> <ul style="list-style-type: none"> • Enrollment and New Quarterly Performance Dashboard: <ul style="list-style-type: none"> ○ As of October 1st, there are 115,351 people enrolled in Cal MediConnect, for a more complete breakdown, you can check out calduals.org where we have this breakdown by county and other demographics. The team has been working for a number of months on revising this performance dashboard and wants to thank the stakeholders who provided helpful feedback regarding the proposed measures. We do anticipate the new dashboard will be released in early January. Join the stakeholders' call next week for an update on the enrollment and quality dashboard. • MFST Transition Plan Update: <ul style="list-style-type: none"> ○ The governor's 2017 budget delayed the transition of the MSFT and [indiscernible audio] from a waiver program to [indiscernible audio] benefit, no sooner than January 2020. Although the state released an archive of completed work to date on preparing for this transition as well as a proposed framework for the delayed transition, that will begin in early 2019. These documents can be found on the Cal Duals website. Also, thank you for reviewing and commenting on these documents. The state has been working to incorporate those comments into the framework and will be releasing a final version in the New Year. We'll have more information on the local implementation and stakeholders' engagement process next year.
III.	<i>Deaka McClain, L.A. Care At Large Member</i>	<p><u>L.A. Care CCI Consumer Council Report</u></p> <ul style="list-style-type: none"> • October 3rd. ADA Equipment Fair: Members came out to observe the equipment presented. The event was successful and had great turnout. • October 3rd A Walk In My Shoes: Members demonstrated what it feels like to have special needs, such as, using a wheelchair, having diabetes, or dyslexia, etc. Employees were able to witness and experience side-effects of these conditions firsthand. • Winter Conference taking place December 15th – CCI members will have the opportunity to learn about Social Determinants of Health and about 2018 consumer council activities. • Presentations at CCI Councils: Antelope Valley and the San Fernando Valley will be receiving part two of two of an education session on managed long-term services and supports (MLTSS).

	<p><i>Hanan Obeidi</i></p>	<ul style="list-style-type: none"> • Question: I wanted to follow up to see of the 19% of new members you’ve been able to bring in—if you’ve done the numbers, which risk stratification they’re falling into? <ul style="list-style-type: none"> ○ Response: Generally speaking, for the larger functions, we’re going to have to keep it as an assumption, but based on the fact that L.A. Care is getting a lot of members from agents, they tend to be a healthier population. When L.A. Care has done side-by-sides based on the risk stratification between CCI members and our Cal MediConnect members, the CCI members that remain tend to be a little older and have a little more complex care needs. <p><u>L.A. Care Medi-Cal Enrollment Updates</u></p> <p>Medi-Cal enrollment remains relatively flat. There have been minor increases of under 1% across all Medi-Cal segments. Robust increases in Medi-Cal membership will not be seen. L.A. Care is beginning to see enrollment, but nothing as robust as in 2014, 2015 when we had expansion. Also, if you look back at 2017, there were some increase where we had individuals that were transitioning into Medi-Cal Managed Care. The total Medi-Cal membership is 2,043,081.</p> <p><u>Q&A</u></p> <ul style="list-style-type: none"> • Question: I remember at our previous meeting, we had asked about your Medi-Cal members who also have Medicare if you were able to run the numbers around where their Medi-Care was whether it was fee-for-service or whether it was a main plan. I wanted to follow up on that. <ul style="list-style-type: none"> ○ Response: The answer that was provided was roughly 50/50. • Question: Just a follow-up on Denny’s question. So, you have obviously you just said you have duals who are either a main plan, MLTSS or original Medicare MLTSS, so what are the actual numbers of those in LA Care? <ul style="list-style-type: none"> ○ Response: About MLTSS and those coming into Managed Care – L.A. Care had roughly 16,000 members that enrolled in L.A. Care that were fee-for-service, and they were CCI members, so that was an increase of roughly 16,000 members. As of November 2017 - it is 111,821. December was not yet available since it comes out on the 8th of every month. These are individuals who have Medicare with another plan or receive fee-for-service Medicare and receive Medi-Cal from L.A. Care. So, the primary insurance or coverage is through Medicare. • Question: Is that 111,000 or so, that does or does not include your plan partners? <ul style="list-style-type: none"> ○ Response: It does not. They have far less. They have somewhere just under 80,000 CCI members. That goes across Anthem Blue Cross, Care First, and Kaiser with the bulk being Care First, about 33,000 members.
	<p><i>Denny Chan</i></p>	
	<p><i>Aileen Harper</i></p>	

V.	<i>Rafael Amezcua Hanan Obeidi</i>	California Long Term Care Education Center Grant (CLTCEC) Presentation
VI.	<i>Rafael Amezcua</i>	Health Risk Assessment Redesign Update
VII.	<i>Roland Palencia</i>	Tranquada VIII Accessible Exam Equipment Grants Presentation
VIII.	<i>Denise Colome</i>	<p><u>Review of Action Item Log</u></p> <ul style="list-style-type: none"> • Follow-up on automatic cross-over billing process for Medi-Cal plans • Follow-up on outreach efforts around transportation due to expanded benefits • Assess if CMC has changed or decreased: Utilization of services, acute care, and SNF, as a result of coordinated care.
IX.	<i>Lisa Kodmur</i>	<p><u>Adjournment & Next SAC Meeting Announcement</u></p> <ul style="list-style-type: none"> • Next meeting to take place on March 8th, 2018 [new meeting date: March 29th, 2018; announced February 2018).
